Praise and Prayer Summer 2007

"He that gathered in summer is a wise son: But he that sleepeth in harvest is a son that causeth shame." Proverbs 10:5

Dear Friends,

Thank you so much for the prayer and financial support you give to our ministry.

We're getting ready for a busy summer reaching out to the children of New Jersey. Many times, summer is the greatest harvest time.

In this update our focus will be on the summer missionaries, training school, and Summer Bible Adventure Clubs.

Would you pray with us that many children will come to know Jesus Christ as Lord and Savior?

Chinese Retreat

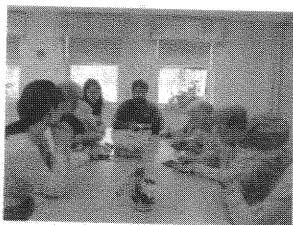

Praise: We have just completed our annual Chinese Retreat at E. Stroudsburg University on Memorial Day Weekend. Our team conducted the children's program. Approximately 60 children participated in eight sessions while their parents attended the retreat meetings. It was a blessing to everyone involved. Four young people accepted Jesus Christ as their Savior. A real blessing came at the end of the retreat when a mother shared with us that her son was autistic and in special classes at school, and for the first time was able to share the Gospel clearly with her. To God be the Glory!

INDIA TRIP

Two of our members, Fred Parkell and Harold Hubler will be leaving for Kerola, India on September 6th, and returning September 18th. They will be training children's workers, so that they in turn can teach in the villages. Pray that they will be used for the glory of the Lord and also for their safety. Also pray for the salvation of many.

Three Strikes Game

(memory verse review game)

To review the location of memory verses, play this game at the end of a unit or quarter.

Directions: On flannel board or chalk board place a word strip naming a book of the Bible and a square with a colon on (symbolizing the dividing of chapter and verse number) make chapter and verse numbers for the verse along with three X's representing strikes. If reviewing more than one verse remember to keep each verse's number separate.

To play: quote a verse from a pervious lesson, then allow one ore more students to pull the verse number one at a time from a sack. Students try to place the numbers in the correct order before drawing three strikes. If a number is drawn and placed incorrectly, it goes back into the sack to be drawn again.
